

Play to Completion Statement:

All players are expected to play all scheduled matches to completion. This includes main draws, back draws and/or consolation matches. It is considered a violation of Good Sport protocol to withdraw from any scheduled match, as other players and families may be adversely affected. A documented injury, illness or personal/family emergency are the only acceptable grounds for withdrawal.

Junior players demonstrating a pattern of withdrawals and walkovers may be assessed penalty points if there is a demonstrated pattern of failure to play to completion. In the event a pattern of withdrawals and walkovers becomes apparent, the player will be asked to provide documentation associated with each withdrawal.

Please understand your responsibility as a player: when you sign up for a USTA event, you are making a commitment to play the entire event to its conclusion. By doing so you are not only honoring that commitment, but also showing strength of character, respect for your opponents and for the integrity of the event.
